

## WHAT IS AGELOC TRANSFORMATION?

### AGELOC SCIENCE

Nu Skin is taking the science of anti-aging to a completely new level by studying the genetic origins of how and why we age. Developed by Nu Skin in collaboration with leading scientists, ageLOC science is based on the discovery of internal sources of aging that contribute to an aging appearance, what Nu Skin calls age-related super markers, or arSuperMarkers. Nu Skin's exclusive ageLOC science targets these arSuperMarkers—the ultimate sources of aging that can influence how we age.

Nu Skin Enterprises Inc. ([NUS](#)) is sitting on a demographic sweet spot that should guarantee significant expansion of its revenue stream for years to come, providing an un-paralled opportunity for their distributor force as these products meet eager consumers as the significant aging of the world population with what seems to be an ever-increasing global focus on “retaining one’s youth.”
